

PCG's Project Success Resource Center

Professional Development for Teachers Supporting Students with Significant Disabilities

Project Success provides evidence-based professional development to build local capacity related to the integration of academic standards, functional skills, curriculum, and assessments to ensure that students with disabilities, including those with significant intellectual disabilities, achieve increasingly higher academic outcomes and leave high school ready for post-secondary options.

How We Can Help

PCG's Project Success Resource Center delivers targeted professional development and coaching designed specifically for teachers and leaders who support students with significant disabilities. By providing a needs assessment and carefully aligned content, we ensure teachers receive the support they need to be successful.

Playbook: PCG's Professional Learning Platform

Playbook is a professional learning and coaching platform, offering a collection of plays, consulting, coaching, networking opportunities, curated content, and practical technology tools designed to support educators. Playbook accommodates teachers' hectic schedules through a less rigid approach to professional development with on-demand availability of content and asynchronous access to Project Success coaches.

Enrollment in Project Success Playbook includes:

- Personalized needs assessment
- Access to asynchronous professional learning content and our virtual learning community
- Six (6) live virtual professional development sessions
- Personal virtual check-ins and coaching
- End-of-year showcase

Cost: \$750 per teacher

Benefits of Project Success Playbook

Provides professional learning and coaching designed to improve equitable access to instruction and curriculum for all students.

Structured collaboration and networking to share resources, tools, and ideas across districts, content areas, and grade levels.

Year 1

Teachers who are new to Project Success will engage in content, collaboration, and coaching through a combination of synchronous and asynchronous professional development addressing topics such as:

- Student Communication
- Collaboration with Colleagues
- Universally Designed Lesson Plans
- Unpacking Standards for Access
- Best Practices in IEP Goal Writing

Year 2

Teachers who have participated in Project Success Playbook are invited to continue their growth and development in our Year 2 cohort! Year 2 will offer a deeper dive into some of the most important topics in special education, including:

- Augmentative and Alternative Communication (AAC)
- Behavior Support Strategies
- Working with Paraprofessionals
- Curriculum and Alternate Standards
- Inclusive Practices

Additional Services

Live Webinars

Each webinar series delivers targeted, synchronous professional learning designed for educators, leaders, and/or paraprofessionals supporting students with disabilities.

Facilitated by a Project Success subject matter expert, each 90-minute session incorporates opportunities to engage in evidence-based content and conversation related to the following topics:

Teacher Webinar Series

- Inclusive Strategies to Support Students with Disabilities
- Communication, Collaboration, and Support of Paraprofessionals
- Implementing the Three Principles of Universal Design for Learning to Support Students with Disabilities
- Creating and Implementing Effective Transition Plans to Support Students with Disabilities

Cost: \$160 for the 4-part series

Paraprofessional Webinar Series

- Supporting Culturally Responsive and Inclusive Classroom Strategies
- Communication Between Paraprofessionals and Educators
- Classroom Management and Behavior Strategies
- Instructional Strategies in Action

Cost: \$100 for the 4-part series

New Teacher Jump Start

New Teacher Jump Start builds foundational skills with teachers who are new to special education by emphasizing planning, collaboration, and instructional best practices, including:

- High Expectations and Presuming Competence
- Student Communication
- Collaborating with Colleagues
- Universal Design for Learning
- Unpacking Standards
- Best Practices in IEP Goal Writing

Cost: \$150* per teacher
